

### Ramblings, part 3:

Well, 10th June, less than a month go to, please do not forget to write or e mail in, with your views, but not before acquainting yourselves with the facts. Some local people in Peaslake are refusing to even discuss what the real complaints about being part of Shere is, just stating- "It's all on the website". ( I know this is happening first-hand, being a Peaslaker myself).

Not exactly a compelling case, is it? They could try, for a start, reading the content of this site.

I think we are now 3 weeks into the consultation period, less than a month go to, so there is a need to take the case for 'remain' to the wider parish. I have no idea how to do this, apart from what I am doing now. Does anyone have any ideas? Is this happening?

My only method was to create and spread this site, because holding the 'contrary view ' as some see it, was difficult to do anywhere else. The "community council" site would not accept or tolerate any view apart from their own published view. There's democracy for you, and a sign of how things might turn out.

So, please forward the link to anyone in the parish you know, and ask them to forward as well.

When I started out on this, 10 days ago, I had a mere 24 e-mail addresses to mail to, beginning the spread of the info on the website. That list has grown now to around 150. That has to be a really good sign, but let's not be complacent:

Write in, or e mail before the due date, and time.
